Join CCA to hear about the next generation of living in Downtown at our next **Housing Panel & Showcase: Density Is Our Destiny**. Academics, planners, and environmentalists all agree cities are the best opportunity for sustainable growth. Access to mass transit, vertical living and walkable neighborhoods are characteristics of a city that will accommodate increased population. In Los Angeles, Downtown is this model city. It is the region's center for public transportation and is home to more high-rises than any other place in the city. **In Downtown, density is our destiny.**

Moderated by **Kerry Cavanaugh**, Los Angeles Times; with speakers **Councilmember José Huizar**, 14th District; **Paul Keller**, Mack Urban; **Jerry Neuman**, Liner LLP; and **Cindy Starrett**, Latham & Watkins.

METRO BIKE SHARE PRICING & EXPANSION

Upcoming CCA Events and Committees - June & J...

The Metro Bike Share system opened Downtown in July 2016, and thus far it has fallen short of expectations on ridership and fiscal sustainability. Pricing structure and the poor quality of infrastructure in LA have both been cited as contributing factors, and Metro will be in to discuss how they're planning to address these issues. *Special guest: Avital Shavit, Metro*
